Copyright, 1928, Faries Mfg. Co.

This catalogue is protected by United States Copyright owned by Faries Manufacturing Co. The copying of its subject matter is an infringement which will be vigorously prosecuted.

PROTECTION

We protect our customers in the use of our products and assure them of their superior quality, practical construction, artistic design, new metal, and in all ways satisfying the requirements of the user, and cheapest in the end. We are rapidly securing patents on all of our original articles and are protecting them against all copyists.

Buy from the Originators

DESIGN PATENTS

Our many Design Patents on Fixtures and Fittings include their particular ornamentation and detail both in general appearance and in special features, also their characteristics in outline and shape. Any similar designs that may be mistaken "by the casual observer" to be the same things, or that appeal to the artistic emotions as the same, come under the law as colorable imitations and unfair substitutes.

WE HAVE LICENSED NO PERSONS OR FIRMS TO MANUFACTURE ANY OF OUR DESIGNS OR ANYTHING SIMILAR TO THEM FOR THE PURPOSE OF SELLING TO THE TRADE.

We are continually originating new designs and devices for the Electrical Trade which we are patenting for the protection of our trade and against unfair copyists.

WARNING

United States Patent Law provides a penalty of $250 for making, selling or OFFERING FOR SALE an infringing article, as well as court costs, damages shown, and an injunction covering same. Several cases have already been tried, injunctions handed down and penalties collected against the unlawful making of infringements.

Buy from the Patentees

MECHANICAL PATENTS

Our Patents and Patent Pending on any Device are written to cover all important Mechanical features of that device. In a mechanical patent the design and artistic features are not considered; the mechanical elements alone are involved. The claims of our inventions are such as to cover all practical forms for the specified uses. Therefore the change of design would not avoid infringement.

Announcement . . . to Our Trade

Please Read This Page Carefully. It Will Prevent Errors and Perhaps Misunderstandings

WE take pleasure in presenting herewith a completely revised and up-to-date Catalog No. 33 showing a variety of the latest designs in the Faries Patent Adjustable Electric Brackets, Adjustable and Flexible Arm Portables, Verdelite Portables, Commercial Lighting Units, Floor Portables and Metal Shades and Reflectors; also a line of Electric fixtures, brackets, canopies, fittings, parts, etc.

The same high quality will be maintained in these goods that has made the Faries line recognized as the leader and standard in the trade since 1880.

All material shown in this catalog, where it is practical to do so, is packed in cartons which enables our trade to carry these goods in stock without deterioration.

All portables shown in this catalog have a heavy sheet of felt on the bottom of base so that they will not scratch or mar a finished surface.

We are continually adding to our line and at any time you do not find what you want, write us describing your wants or send us a rough sketch, and we may possibly have the goods in stock or be in a position to make them for you.

PRICES—All former prices or quotations are hereby superseded for goods shown in this catalog. Prices are given in connection with each cut, but do not include shades, lamps, shade holders, sockets, wiring or insulating joints unless specified. Where socket covers are shown price includes same. Discount to the trade will be quoted upon application. Prices are subject to change without notice. **Our minimum charge is 50c.**

TERMS—Net thirty days from date of invoice, or 2% for cash within ten days.

REFERENCES—Unless you know yourselves to be well reported by the commercial agencies, money should accompany order, or satisfactory references be furnished.

C. O. D.—We will send goods C. O. D., but as a guarantee of good faith the parties so ordering will be required to remit with order an amount sufficient to pay transportation charges both ways, which will be deducted from the bill.

LENGTH—Length is given in connection with each cut and upon chandeliers, means to the lowest point of the fixture, not including glassware. Extra length will be furnished at prices specified throughout the catalog.

SPREAD—Spread is given in connection with each cut. Upon electric fixtures, from end of socket to end of socket, upon ceiling fixtures width of spinning. Length on adjustable brackets is measured to end of nozzle.

HOW TO ORDER—Order by catalog number and name of goods, stating number of lights and finish desired. Please do not use the words, "Same as last." State whether goods are to be sent by freight or express. Unless preference is given, we will ship according to our best judgment.

All portables listed in this catalog will be shipped wired with socket, plug and shades unless otherwise specified.

WIRING—For the convenience of our trade, we will make the following charges for wiring fixtures and brackets: Wall brackets shown on pages 86 to 103, list price 60c per light; electric fixtures regular length, list price 75c per light. These prices do not include sockets, shades or shade holders. Sockets, shade holders and glassware will be found listed in this catalog.

FINISH—When ordering state finish desired. If no finish is specified we will always send first finish listed. We will furnish Black Iron at the same price as Brushed Brass. Nickel Plate, Flemish Brass, Brushed Copper, Statuary Bronze, 10% advance, except where otherwise specified. White Enamel, White Enamel and colors, Ivory, Old Ivory, Ivory and colors, Verde Antique, Roman Gold, Brown Tone and Gold, Pewter and Gold, Statuary Bronze and Gold, Jap Gold, French Grey and Gold, 20% advance except where otherwise specified. Antique Silver, Satin Silver and Ebony, 25% advance. Any special finish can be supplied at reasonable prices.

OUR RESPONSIBILITY—We use every care in packing our goods, and our responsibility ceases when we have obtained carrier's receipt in good order. When goods are received in bad order, we suggest calling the attention of the carrier's agent, securing the endorsement of the fact on your bill and file your claim with the carrier's agent at once. If there are any errors, report them to us fully at once, referring to the date of shipment and invoice, and we will correct at once or advse you what to do. **Goods returned to us without our instructions will not be received.**

PACKING AND CARTAGE—Our charge for boxing will always be reasonable, charging only enough to cover cost of material used in putting up goods. **For Parcel Post there is an extra charge for special packing. No charge for cartage.**

BRASS AND ALUMINUM CASTINGS—We are furnishing chandelier and fixture manufacturers in all parts of the country castings from their own patterns as well as from a very large lne of our own. If you are using castings, it will pay you to write us. We can furnish you the right kind at reasonable prices. We also make a complete line of turnings, spinnings and stampings for fixture manufacturers.

SPECIAL ORDERS—Special order work not subject to cancellation.

Assemblies and Parts for Adjustable Brackets

Tubing ⅜ inch
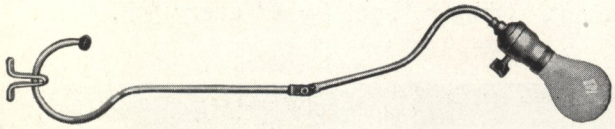
Length to End of Nozzle, 24 inches

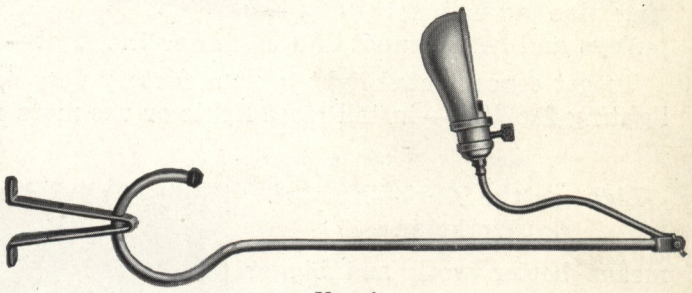
Brushed Brass **$1.10**



No. 3

Standard Package 12
Tubing ⅜ inch
Length to End of Nozzle, 24 inches
With Hinged Joint

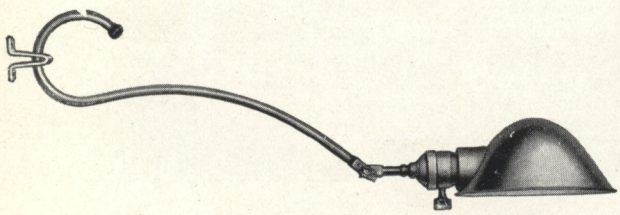
Brushed Brass **$2.00**



No. 4

Standard Package 12
Tubing ½ inch
Length to End of Nozzle, 44 inches
With Hinged Joint

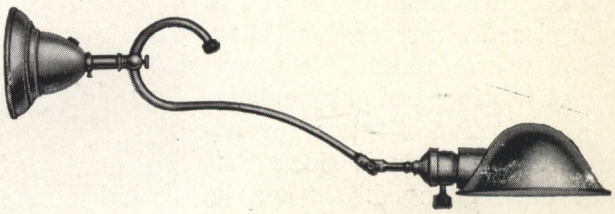
Brushed Brass **$2.60**



No. 14

Standard Package 12
Tubing ⅜ inch
Length to End of Nozzle, 17 inches
With Hinged Joint

Brushed Brass **$1.75**



No. 542

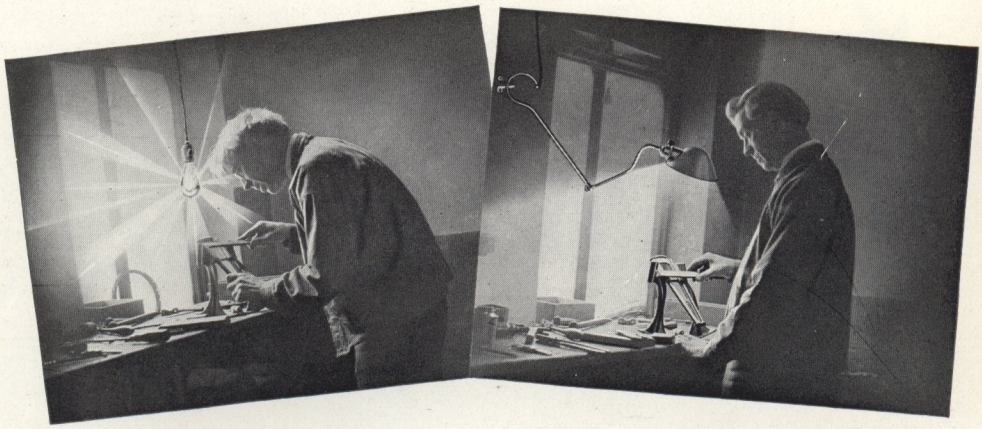
Standard Package 12
Tubing ⅜ inch
Length to End of Nozzle, 22 inches
With 4½ inch Canopy for Use With Insulating Joint

Brushed Brass **$2.65**

Metal Shades and Reflectors shown on pages 50 to 54 inclusive
Prices do not include Shades, Lamps, Shade Holders, Sockets or Wiring

Adjustable Brackets in Actual Use

Work That Requires Concentrated Light



"Applied" light in the shops—for bench work—on small machines—over looms or **wherever** it's necessary to **bring out the details** is absolutely essential.

With it more accurate work is possible, valuable time is not wasted in getting fine adjustments—pulleys and belts cannot dim or flicker the light—eye strain is lessened and fewer accidents result.

To get concentrated light in your factory does not mean that you have to increase your overhead lighting facilities—install more lights or use more current. **Simply "spot light" every job.**

Light on the Work—Not the Workman

means better work and bigger production. Here is a **fixture that stays where you put it and throws** light **on the WORK but** does not blind the workman.

This Adjustable Bracket

is cleverly designed to be moved from point to point by locking in eyes placed wherever there is occasion to use a light. Further, it may be tipped at any angle by a simple motion—once an adjustment is made it stays that way until changed. It can be swung from one side to the other. For close lighting of fine work the Faries Adjustable Bracket is especially valuable. There are thousands of these Brackets in use, in some of the most up-to-date plants in the country.

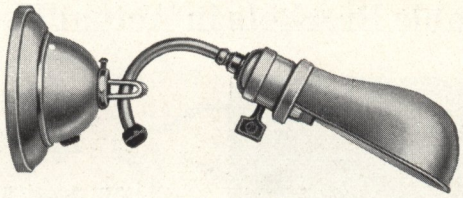
We have adjustable brackets suitable for practically all places where Electric Light is used.

Metal Shades and Reflectors shown on pages 50 to 54 inclusive

FARIES TRADE MARK

Adjustable Brackets

Adjustable to any Position, for Office, Store, Residence or Factory
Furnished with Approved Insulator



No. 38

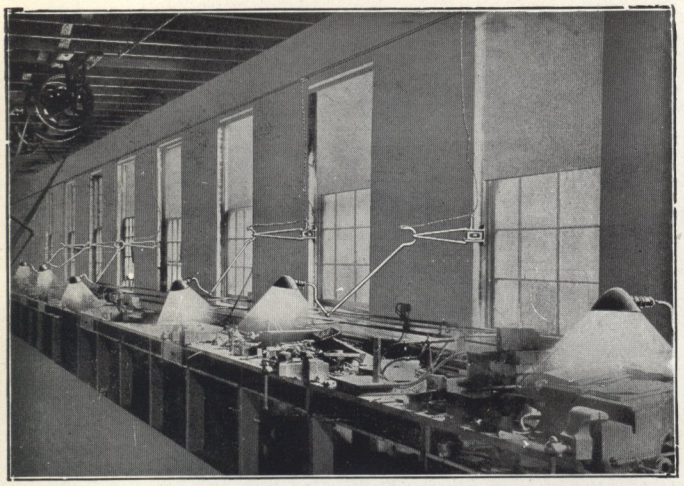
Metal Shades and Reflectors shown on pages 50 to 54 inclusive
Prices do not include Shades, Lamps, Shade Holders, Sockets or Wiring

Adjustable Brackets in Actual Use



BRING OUT THE DETAILS!

Then accurate and rapid work is possible—your skilled workmen won't waste their time and your money "fussing" over fine work and trying to get adjustments in dim light or shadow.

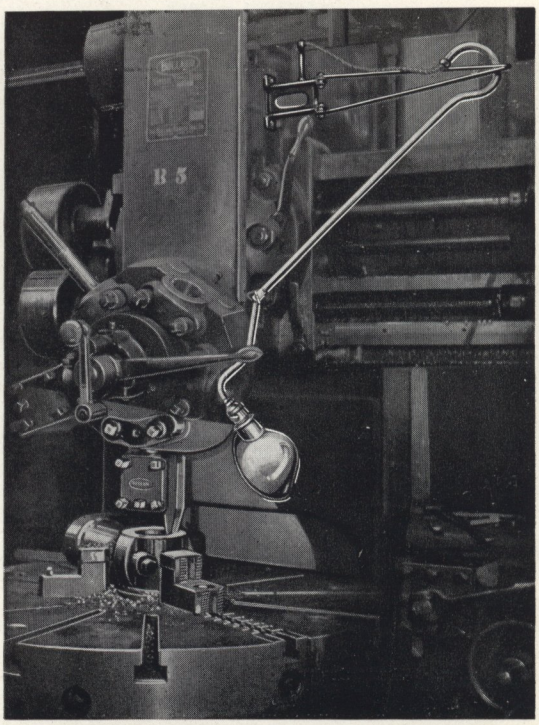
These Brackets "stay put" just where needed—keep the glare out of the workmen's eyes and concentrate the rays directly on the work. "Spot lighting" the detail work is the method that is cutting costs in hundreds of factories.

DIFFICULT LIGHTING PROBLEMS

Vertical Turret Lathes
Punch Presses
Milling Machines
Drill Presses, etc.

These machines present some of the most difficult of Factory Lighting Problems.

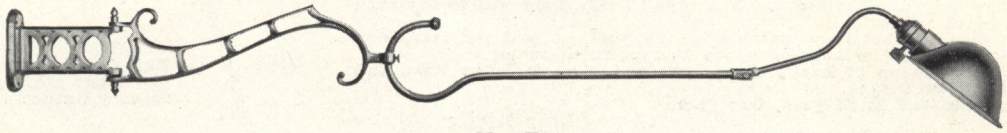
Faries Factory Lighting Equipment solves each of these problems.



Faries No. 5 Bracket solves another difficulty

Adjustable Brackets

Adjustable to any Position. Especially adapted for Office, Factory, Store, Doctor or Dentist. Furnished with Approved Insulator



No. 7

Standard Package 6
Tubing 7-16 inch
Length to End of Nozzle, 5 feet
Has a Hinged Jont

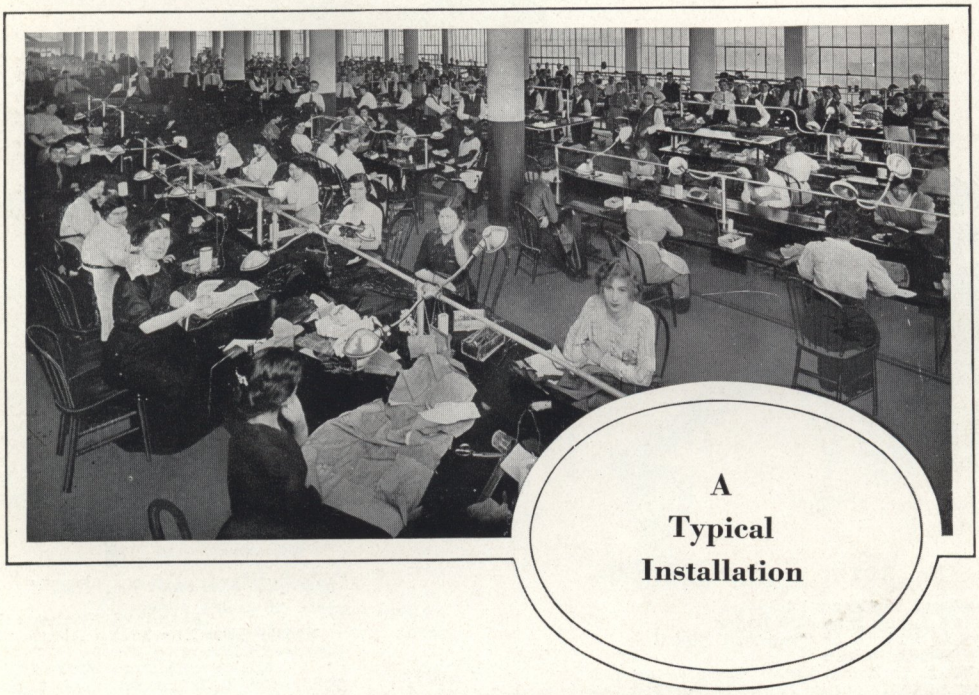
Bases of Nos. 3841 and 3884 covered with felt and will not mar or scratch radio cabinet or piano

Flexible Arms in Actual Use

A TYPICAL INSTALLATION FOR A COMPOSING ROOM

These two pictures illustrate installations of Flexible Arms. These arms are practically indestructible, and are adjustable to any position so that each individual workman may adjust the light to his particular requirements, assuring more accuracy and efficiency. The saving in time and reduction of spoiled work soon pays for the installation.



A Typical Installation

SEVENTY-FIVE PER CENT

of spoiled work in manufacturing is due to inefficient lighting. With flexible arms and proper "FARIES" shades, you can spot your light where you want it, protect your workmen's eyes, speed up your production and reduce the amount of defective work.

Metal Shades and Reflectors shown on pages 50 to 54 inclusive

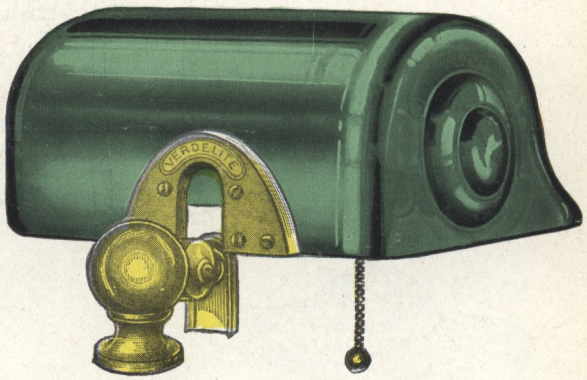
The two-piece Cast Clamp Shade Holder only to fit Shade **No. 3134**..... **$1.25**

No. 3135 includes only the Horse Shoe Holder with screws to fit Shade.

Specify Finish Desired



Rear View of Shade Sliding Into Position

INTERCHANGEABLE SHADES

By the use of our patented principle, Verdelite Shades are mounted on a special holder and easily slide into place on the portable without the use of any tools or set screws.

Verdelite Shades are adjustable to any angle; are interchangeable, and may be removed instantly to conveniently clean, or to replace, as the occasion may require.

To detach, it is only necessary to use your two hands which instantly remove shade from slot, permitting replacement of shade without disturbing electric wiring or other elements.

For Old Style Shade see page No. 104
